Click 'n' Seal has revolutionised the sealant gun market with its unique patented method of holding the cartridge. To use it you just have to push the cartridge into the gun and apply the sealant. The simple design also allows quick cartridge change and easy rotation at corners. The Click 'n' Seal gun also means no more difficulties getting into those hard to reach places, behind taps etc, with no obstruction at the nozzle end. Click 'n' Seal is the easier way to seal.
