ROOFING REPAIR - EVERCRYL

FROM
£20.66

Evercryl is a resin based, fibre reinforced roof repair compound which is effective on all common roofing surfaces, giving instant roof repairs even in the wet and on wet surfaces. May also be applied in frosty conditions down to -5°C. Evercryl is instantly waterproof when applied, there is no fear of wash off so emergency leaks can be tackled immediately as there is no need to wait for the rain to stop. Evercryl is brush applied and dries to a smooth seamless flexible membrane which resists algae and fungal growth. Because of the high level of fibre reinforcement, Evercryl will bridge small cracks and requires only a one coat brush application to give instant and total water protection, even in areas subject to ponding. Evercryl requires no primer on sound non-porous surfaces.

The Product is specifically designed for the following applications:

General sealing, maintenance, repair and waterproofing of most common roofs in wet or dry conditions - for use on concrete, fibre/cement, roofing felt, mastic asphalt, existing bituminous roof coatings, rigid PVCu, corrugated iron, metals, slates, brickwork, tiles, lead, copper and zinc. Waterproofing guttering (plastic and metal), downpipes, gulleys, flashings, upstands, vents and leadwork.

PAINTS - PRIMER - BITUMEN & FLASHING 902

FROM
£3.56

Bitumen and Flashing Primer is a thin black primer used to give a key prior to applying bitumen paints, roof coatings and flashing.

Code	Size	Each £	Box Qty	Box £
EBBIT9021	1Ltr	3.95	12	42.66
EBBIT9022	5Ltr	10.95	4	39.42

MASTIC - BITUMEN TROWEL 903

FROM
£3.56

Bitumen Trowel Mastic is a trowel applied black heavily filled bituminous compound with added fibres for reinforcement. The product forms a surface skin, but the mass below remains soft to allow for moderate movement. Suitable for sealing and filling holes in mastic asphalt, roofing felt, corrugated iron, metal guttering and downpipes.

/BITUMENS & ROOFING PRODUCTS

BITUMEN - ROOF COATING ALL WEATHER 905

All Weather Roof Coating is a solvent based, full bodied black brushable bitumen compound with added fibres for reinforcement. It is an effective general purpose roof coating that is resistant to wash off by rain almost immediately. The product is specifically designed for general waterproofing in all roofing applications, guttering (non plastic) and structural steelwork.

Code	Size	Each £	Box Qty
EB905RC	5ltr	1	12.49

BITUMEN - ROOF EMULSION 906

Bitumen Roofing Emulsion is a stable bitumen/water emulsion of medium brushing consistency which dries to a black, flexible coating. The product is specially designed for general waterproofing of roofs and provides protection against corrosion of pipes and structural steelwork.

Code	Size	Each £	Box Qty
EB906RE	5ltr	1	13.17

PAINT - SOLAR REFLECTIVE 907

FROM
£9.86

Solar Reflective Paint is a thin bituminous based aluminium protective paint of brushable consistency which dries to a silvery finish. The product is specifically designed for application over primed metal walls and roofs to reduce heat absorption.

Code	Size	Each £	Box Qty	Box £
EBBIT906	5Ltr	10.95	4	39.42

BITUMEN - EMULSION DPM 908

FROM
£22.47

DPM is an odourless rubber enriched bitumen emulsion which provides a highly effective sandwich damp proof membrane for floors. Also acts as a waterproofer for walls, above ground structures and foundations.
