

## CURVE CUTTING SPECIALIST BLADE

10 mm

SEGMENT HEIGHT

**CURVE CUTTING** diamond blades are designed to be used with 4.5" and 9" angle grinders for cutting curves and radii with ease. The radii of the curve can be altered by tilting the angle of the blade in the cut

### CONCRETE SLABS • BLOCK PAVIOURS

KEYHOLE GULLET DESIGN

FAST CUTTING SPEED AND VARIABLE RADII

10MM SEGMENT HEIGHT

## APPLICATION

THE CONCAVE STEEL CENTRE MAKES CUTTING CURVES IN CONCRETE SLABS AND BLOCK PAVIOURS SIMPLE. FOR USE WITH ANGLE GRINDERS

- CONCRETE
- NATURAL STONE
- CONCRETE SLABS
- PAVING BLOCKS

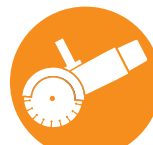

10mm sintered segments with keyhole gullets and high diamond concentration

PRODUCT CODE	DIA. (mm)	DIA. (in)	SEG. WIDTH (mm)	BORE SIZE (mm)
A10RB310C	115	4.5	1.9	22.23
A10RB610C	230	9	2.6	22.23

SAFETY STANDARD

USE ON ANGLE GRINDERS

SEGMENTED BLADE TYPE

CAN BE USED WET OR DRY
